

TUITION/FEES

2018-2019

TUITION & FINANCIAL PHILOSOPHY

Since the school’s inception, the Board of Directors decided that 100% of the school’s annual operating expenses be borne by those receiving the value: therefore, tuition and fees require some adjusting each year in order to cover all of the academy’s operating expenses. As a result, Providence has never incurred any debt.

Because of the nature of the university-model, the cost of tuition for a full-time student will be less than a typical 5-day-a-week school. However, our desire to attract and retain the very best teachers will be reflected in our tuition as well.
